# Why it makes good sense to fit Meritor Brake Linings.

ArvinMeritor's worldwide manufacturing facilities and position in the automotive business give it the strength and ability, more than any other single supplier, to determine globally the most suitable friction materials for heavy vehicle applications.

For the professional commercial vehicle operator it makes sense to fit Meritor Brake Linings because:

- Meritor are experts in brake design – *the world's number one manufacturer of commercial vehicle drum brakes*
- We are the vehicle manufacturers' preferred supplier of drum brakes in Europe – *over 15 million Lucas, Rockwell and ROR brakes are currently on the road – and include the famous names: SAC 'Z' Cam, StopMaster® and CamMaster®*
- Meritor fully supports customers with a combined team of world leading brake engineers - *over 100 years of OE pedigree and experience*

Meritor is the quality brand for commercial vehicles – parts and service on which you can rely

It also makes sense to fit Meritor Brake Linings because:

- our friction materials are developed for specific truck, bus and trailer applications
- we have an unrivalled product integrity and quality standard to ensure you achieve good value for money – longer brake lining life + reduced brake drum wear rates = improved “down times”
- we satisfy your requirements with a comprehensive range of standard and oversize linings
- we have Europe's widest range of UNECE R90 approved brake linings
- the range is fully supported by the Meritor warranty standard
- we offer extensive technical and field support
- we are able to offer a reliable parts “VOR” service
- Meritor provides a complementary range of original quality brake drums
- Meritor provides complementary ranges of original quality brake pads and discs
- Meritor provides the professional workshop with all the necessary specialist brake tools for the job
